Punta Jaguar Experience Guide

Message from the owners

They say bad roads bring good people...

In late 2025 Punta Jaguar started a new chapter with our dream house far away from the crowds, nested deep in the jungle and overlooking the waves.

We have found magic in Matapalo; our aim to protect it and leave the smallest possible footprint while enjoying a maximum of sustainable luxuries.

Meet your Hosts

Jacky and Didier are your hosts and will make sure that you want for nothing during your stay.

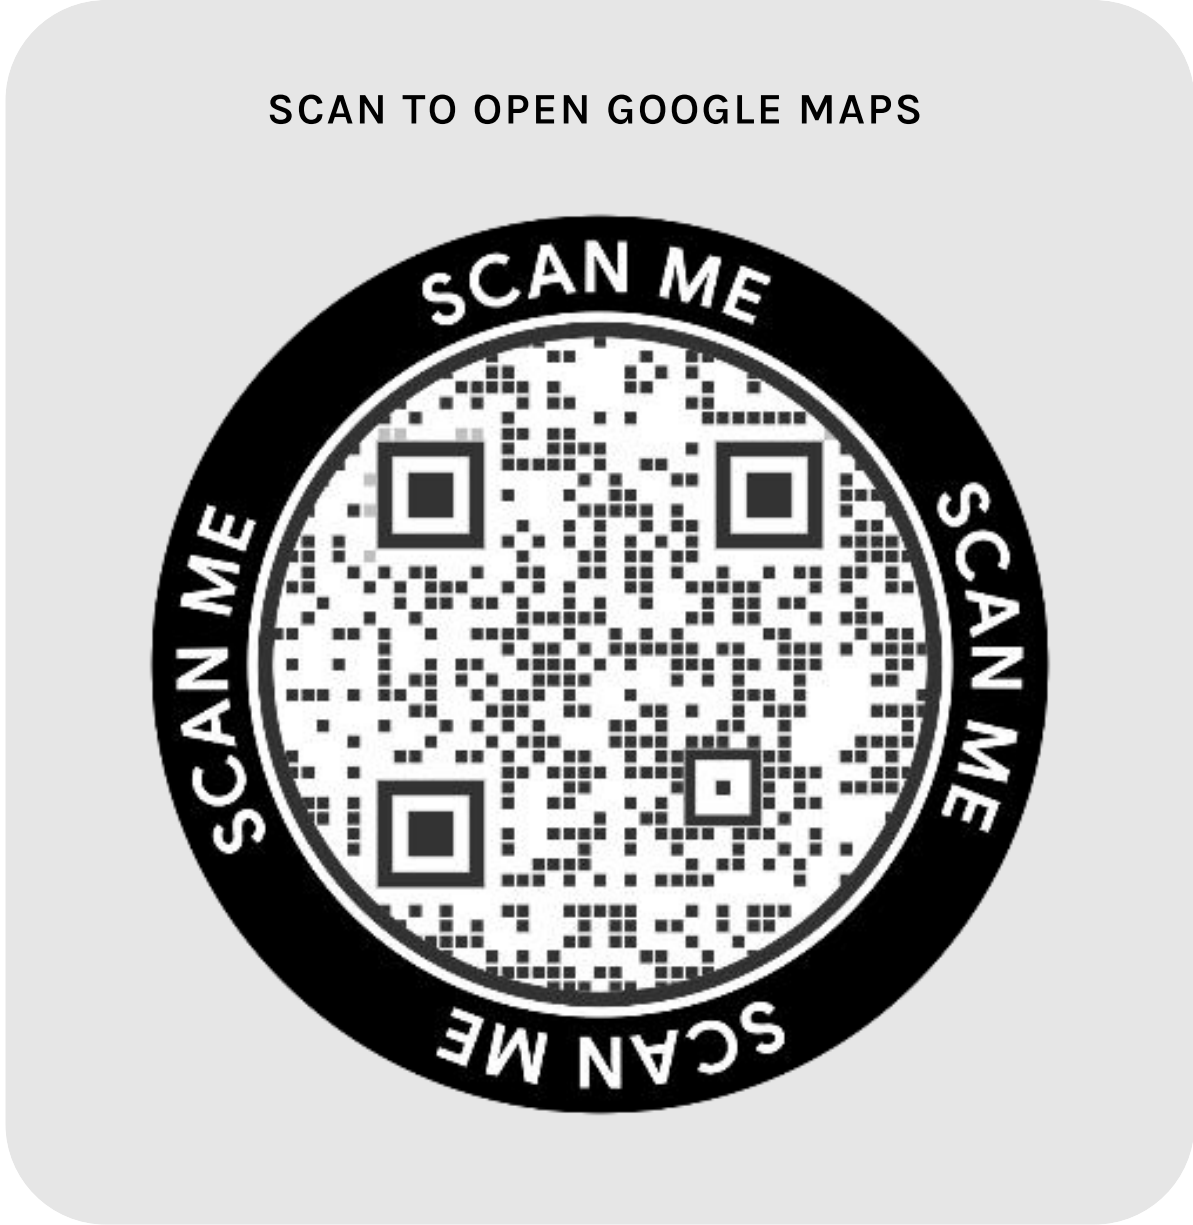

They live on the same property ensuring your safety while giving you total privacy.

Contact them via Whatsapp or just take a walk over to their house to ask for any help you may need. While Spanish is preferred, they also speak a little English.

Get Directions

You drive from Puerto Jimenez in the direction of Karate for about 45 minutes on the 245. At some point you will see a turn-off to the left to Matapalo, which you do not take but continue straight ahead. On the right there is a wooden sign for the hotel "Lapa Rios", you will also drive past it. Then after about 1.5km there is a green metal gate on the left side, next to it is a wooden sign with our logo (orange jaguar head), there you turn and drive straight ahead on this road for almost 2km, it goes steeply downhill in parts.

The first turnoff to the right is not Punta Jaguar, its our neighbor Tres Palmas. Further along there is another wooden sign on the right with our logo, you turn in and you've arrived. Then get in touch with Didier, he is our caretaker.
